Senator Knight Is Mentioned in The Census Probe

Laidlaw Declares Senator Knight and Fred Hammond, Clerk of the Assembly, Were Very Close to Census Affairs.

Albany, Oct. 22 (P).—The names of Senator John Knight, Republican leader of the state senate, and Fred Hammond, clerk of the assembly, were brought into the Moreland act investigation of the 1925 state census today. The investigation, ordered by Governor Smith, with Randall J. Leboeuf, Jr., as commissioner conducting the inquiry, followed charges of the City Census Committee, Inc., of misfeasance, nonfeasance and malfeasance in the administration of the state enumeration under the direction of Mrs. Florence E. Knapp, then secretary of state.

Dr. Walter Laidlaw, one of the authors of the report containing the charges, resumed his testimony today. He said that there were other political leaders besides Colonel Lafayette B. Gleason, secretary of the Republican state committee and the chief census supervisor, who were very close to census affairs, and specifically mentioned Senator Knight and Mr. Hammond. He said, also, that Colonel Gleason had instructed him to deal directly with the Colonel instead of with Mrs. Knapp.

Dr. Laidlaw said, in reply to questions by Commissioner Le Boeuf, that although he had objected to the appointment of 150 assistant supervisors at \$500 each, he had accepted a position as assistant supervisor at \$5,000. However, said he, the title meant little to him.

Printing of Report.
Clerk Hammond's name was brought into the proceedings by Dr. Laidlaw in connection with the printing of the census report to the legislature. The witness had tried to have the report printed by what is known as the "photograph" process rather than by regular printing for the sake of economy.

"Sam Howard (an official in the Albany census bureau) told me," said Dr. Laidlaw, "that Fred was willing to have it done by that process." "Did you know who Fred was?" asked Mr. Le Boeuf.

"I had a pretty good idea," replied Laidlaw. "I had given to Fred Hammond a copy of the work with a word of two about its economy. I made the inference that in addition to his duties as clerk of the assembly he was very much interested in the taking of the census."

"On what did you base that inference?" asked Mr. Le Boeuf.

"I thought," answered the witness, "that if Howard had thought it worth while to report to him and he should reply that he thought the idea was good and I thought inasmuch as there was some resistance at 59 Central avenue (the Albany census bureau) to submitting the report in that form, possibly Howard had repeated the whole thing to Fred and now felt easier in going on with the work in that way."

Didn't Understand.
"Well, I do not think Mr. Sisson (the deputy chief supervisor) knew what was projected. He had not been through a thing of the kind. I think his resistance was not to the economy but because he did not understand it. Of course Mrs. Knapp had told me he was to disappear about Christmas (1925)."

"Why was he to disappear?" "She gave me as the reason," replied Laidlaw, "that she thought that for the job as it was to go on there could be supervision better adapted to what she wanted to accomplish."

"You were to come in and do that?" "Precisely. Colonel Gleason, towards the end of December, in the presence of Mrs. Knapp, said, 'Well, doctor, I'm about through with my job and we've got to look now to you.'"

Marie Has Faith in Prince Carol
Bucharest, Oct. 22 (P).—Queen Marie has faith in her son, the former Crown Prince Carol, and believes that he will never attempt to regain that which he has renounced—the throne. She hopes also that he will finally abandon Mme. Lupescu.

Reports from abroad that emissaries of the National Peasant Party had gone to Paris to induce him to abandon the throne-haired woman with whom he eloped almost two years ago, are not believed at the royal palace.

Time and again in letters to this monarch the prince has given her assurance that he will make no attempt, illegal or secret, to re-enter his kingdom.

Second False Start of Dawn

Couldn't Fly Down the Wind, Declares Mrs. Grayson—Possibility of Another Take Off Remote.

Old Orchard, Me., Oct. 22 (P).—"We just couldn't fly down the wind, that's all," explained Mrs. Frances W. Grayson, the Long Island aviator who hoped to be the first woman to fly across the Atlantic ocean, as the amphibian plane, the Dawn, taxied out of the water and up the beach here today after a second false start this week for Copenhagen.

The return decision was made when the plane reached a point two miles beyond Cape Elizabeth Lightship, a dozen miles east of here. It was not more than two feet above the water, and making nearly 125 miles an hour. It was estimated by Pilot Wilmer Stutz. Navigator Brice Goldsborough pulled the valve wires, releasing 260 gallons of gas, and thus gained altitude to return to the beach.

A destroyer of the coast guard, which had stood off shore during the attempted flight, followed the Dawn back in until the plane was ashore. Goldsborough climbed to the top wing and signalled the destroyer with semaphore flags that all was well.

Mrs. Grayson, when asked if the next attempt would be made this afternoon at the next low tide, said: "Oh! I don't know. I don't like the idea of two nights of flying but we may do it."

Discusses Flight.
Continuing her discussion of this morning's flight, she said:

"It was a terrible beach to take off from this morning. Pilot Stutz had fairly to pull the plane into the air."

By the time the plane started its run down the beach at 6:15, the tide had crept in, leaving only a comparatively narrow path on the upper sand, which is softer than that uncovered at dead low tide.

The plane was forced to run much further than on the previous attempt last Tuesday. It was fully a mile and a quarter and perhaps a mile and a half before the wheels left the ground, previous to the actual start the Dawn had started the assembling groups along the long stretch of sand by speeding the length of the beach. Although it appeared like an attempt to take off, in reality it was simply to test the balance of the plane.

The possibility of another take off this afternoon seemed remote after a conference on the beach between Mrs. Grayson, Pilot Stutz and Igor Sikorsky, builder of the plane.

Mrs. Johnson Found on Floor

West Union Street Woman Had Laid Unconscious on Floor Several Days When Found Friday Evening—Remoted to Kingston City Hospital.

While Mr. and Mrs. Frank Gill, who reside on the first floor of the brick house at No. 22 West Union street, were eating their supper Friday evening, Mrs. Gill remarked to her husband that it seemed rather strange that she had seen nothing of Mrs. Julia Johnson, an elderly woman, who resided on the floor above, for several days.

After discussing the matter the Gills finished their supper and Mr. Gill decided to investigate and he and his wife went upstairs and found the door leading to the Johnson apartments tightly closed. They knocked on the door and received no response and finally were compelled to force an entrance.

This was about 6 o'clock in the evening and as it was very dark in the Johnson apartments, they entered the rooms with a lighted lamp. Lying in a huddled heap on the floor between the bedroom and kitchen they found Mrs. Johnson. She was unable to reply to their questions and Mrs. Gill went to the telephone and called up Dr. Joseph Jacobson, the Gills' family physician. He responded to the call and after examining Mrs. Johnson decided to have her removed to the Kingston City Hospital for treatment.

Dr. Jacobson called up police headquarters and had the city ambulance sent to the house.

Mrs. Johnson is an elderly woman who resided alone in her four room apartment on the second floor. She had only occupied her present apartments about three weeks.

As she had not been seen or heard about the house for several days, the indications are that she was taken suddenly ill and had lain unconscious on the floor for several days and nights before the Gills became apprehensive that all was not right and investigated.

\$600 Verdict in Auto Fraud Case

Marlborough Man Bought Car Which Later Was Found to Have Been Stolen and Sued to Recover Purchase Price—Alienation Case Monday.

A verdict in the sum of \$600 for plaintiff was returned Friday afternoon in the action brought by Joseph F. Swartz against Charles Weed, both of Marlborough. Swartz sought to recover the amount of the verdict from the defendant on the ground of fraud which arose through the purchase of a Buick sedan. Plaintiff alleged he bought the car in good faith relying on the statement that Weed owned it. After he had the car for a time and when Weed produced a bill of sale it was made out by Thomas J. Kelly. Later the car was found to be stolen property and was taken by the insurance underwriters' man and Sergeant Jack Lockhart of the State Troopers and returned to the owner. The motor number had been changed. Weed claimed he had represented the car to Swartz as a car owned by Kelly and stated he was acting as his agent. When Kelly was not located Swartz sought to recover his \$600 from Weed, who claimed he had only acted as Kelly's agent and had turned the money over to Kelly. Frank W. Brooks appeared for the plaintiff and A. W. Lent for the defendant.

The action was originally brought against both Weed and Kelly but before trial Mr. Brooks elected to dismiss the complaint as against Kelly and his request was granted by the court.

Alienation Case Goes Over.
At the conclusion of the case the jurors were excused for the term and court went into recess until 10 o'clock Monday morning at which time the Elmendorf-Kiss motion was to be taken up. Late in the afternoon Mr. Brooks filed an affidavit stipulating to take the testimony of Mrs. Kathleen Dunham, one of the defendant's witnesses, who is ill. Judge Hasbrouck had previously made an order that in the event that such an arrangement was made the case would go over until December term. On the filing of the stipulation Mr. Brinnier, who appears for the plaintiff, opposed the putting of the case over.

This morning a stipulation was filed that the case go over the term and provides for payment of costs of \$200 to bring the witness here from California.

"Defendant first asked the case go over as Mrs. Dunham was in the west and would not be able to attend this term of court. Later Mr. Brinnier, plaintiff's attorney, produced her in court. It was stated that Mrs. Dunham would give additional testimony other than given on the previous trial which would show that the plaintiff and his wife were never alienated as plaintiff claims."

COLLEGE STUDENTS VISIT KINGSTON CITY HOME
The City Home on Flatbush avenue was visited this morning by twenty-six students at St. Stephen's College at Annandale-on-Hudson to inspect the institution and also to ascertain at first hand the causes of poverty. The students were in charge of Prof. Edwards of the college faculty.

Superintendent Thomas H. Edmonston in charge of the City Home escorted the students through the institution and gave them a brief history of the inmates and also the causes of pauperism.

From Kingston the students left for Naapoch to inspect the institution for defective delinquents at that place.

Cockburn's Car Missing.
The Ulster county sheriff's office was notified Friday that some time during Thursday night the 1923 model Marmon touring car of T. Van Buren Cockburn had been stolen from his garage at Mt. Pleasant. The license number is I-T-5349. About 150 cigars are also missing.

Miller Case Adjourned.
Morris Miller of this city was arrested by the police Friday charged with driving an unlicensed automobile. He is accused of using license plates on a Cadillac car that belonged on a Hudson car. This morning in police court the hearing was adjourned to Thursday.

C. D. of A. Card Party.
The Catholic Daughters of America will renew the holding of their popular card parties Thursday evening, October 27, at Knights of Columbus Hall. Games will start promptly at 8 o'clock. Prizes will be awarded and refreshments served. The public is cordially invited.

Business Men Preparing for Community Sale

Thursday, Friday and Saturday of Next Week to Be Marked by Big Annual Sales Event of Merchants of Downtown Section—Ideal Time to Secure Bargains.

Fifty merchants of the downtown section of Kingston are busily preparing for the giant Community Sale to be held here Thursday, Friday and Saturday, October 27, 28 and 29. It is the desire of every storekeeper that the Community Sale, one of Kingston's big yearly events, be bigger and better than ever in the offering of real desirable values to Kingstonians and residents of this vicinity.

The merchants are advertising "Tremendous Savings in Everything You Need" for the "Three Big Money Saving Days". They thoroughly discussed with the executive committee of the Downtown Business Men's Association the advantages of the sale and the most desirable time to hold it. It was decided that October 27, 28 and 29 would be the ideal period for then the people have a chance to figure what will be needed for the cold winter months in the line of wearing apparel and every-day necessities. The convenience of getting to the downtown section of Kingston was also considered in planning for the sale and the merchants determined that all roads are now in excellent shape for commuters from all parts of Ulster and the surrounding counties. Traffic regulation will also be thoroughly taken care of on the days of the sale by officers of the law.

Special Decorations Arranged.
The stores are being decorated not alone to present an artistic aspect but for convenience sake. Shoppers will be reminded of what is needed by them through the medium of windows. All the merchants will place samples of what they have for sale in the show windows. Goods will also be arranged in the stores so that the clerks who will be assisted by a corps of extra help will have no trouble waiting on customers who have but little time to shop.

Preparing for Crowds.
The merchants are preparing for great crowds on the three days. They are confident that the great mass of satisfied buyers who visited the downtown section last year will return for this season's Community Sale augmented by their friends. Every business man who will participate in the Community Sale will have the Blue and Orange banners prominently displayed in the show windows of his store. The banners will be a form of cordial invitation for all to inspect the merchandise on sale.

Says Mrs. Knapp Will Take Stand
Albany, N. Y., Oct. 22 (P).—The impression was growing today among those who have been following at the Capitol the Moreland Act investigation of the conduct of the 1925 state enumeration that Mrs. Florence E. S. Knapp of Syracuse, who as New York's first woman secretary of state, administered the census, will appear on the stand before Commissioner Randall Le Boeuf, Jr., and defend her official and personal acts which have been attacked in the testimony of the past two weeks.

Commissioner Le Boeuf himself maintained his usual silence as to witnesses to be called beyond today's witness, Dr. Walter Laidlaw, secretary of the Cities Census Committee, Inc., on whose charges the present inquiry is based. It was rumored that Alexander Otis, Mrs. Knapp's counsel, had left Albany to consult with Mrs. Knapp and help prepare her defense. Last night Mr. Otis announced that Mrs. Knapp was "passing a quiet week end with relatives." Where he did not state.

The rumor that Mrs. Knapp would appear was given impetus by yesterday's hearing when for the first time since the beginning of the hearings last week she herself took only a background part in the proceedings. Furthermore, considerable of the testimony, even by those responsible for the charges, was in distinct praise of her efforts during the 1925 enumeration and the results of the census itself, so far as it was carried.

W. C. T. U. Meeting.
The regular meeting of the W. C. T. U. of Kingston was held Thursday in the parlor of St. James M. E. Church. The devotional program was in charge of Mrs. Emmet while Mrs. Keefe presided during the conducting of business. Matters of importance were discussed by the eleven members present. It was decided to add to the interest of the meetings so that a large attendance would be assured. After the offering for the promotion of the organization's ideals the meeting adjourned.

Catholic Women to Meet.
A meeting of the Ulster county unit of the National Council of Catholic Women will be held at the R. of C. Hall on Broadway on Tuesday afternoon at 3:30 o'clock. As this is the first meeting of the year a full attendance is desired as business of importance will be transacted.

Union Hose and Auxiliary.
There will be a meeting of Union Hose Company, No. 4, and the Ladies' Auxiliary Sunday afternoon at 3 o'clock. All members are urged to be present.

Chicago Blazes Over Pro-British

Professor Muzzey Files \$100,000 Damage Suit—Gorman Will Take Up Schlesinger History.

Chicago, Oct. 22 (P).—Fire and fireworks, actual and figurative, lent light and repercussion to Mayor Thompson's crusade against British-tainted literature today.

The fire is in prospect, but definitely promised. It is to be on the shores of Lake Michigan, and the fuel will be public library books which the mayor finds tainted with anti-Americanism.

The fireworks were set off yesterday when Prof. David S. Muzzey, of Columbia University, a writer of literary texts, filed the praecipe of a \$100,000 damage suit in federal court here. The suit is directed against John J. Gorman, former Illinois congressman, who acting as Mayor Thompson's investigator, made charges that the Muzzey text, used in Chicago schools, is pro-British in its treatment of many events and personages of American history.

Gorman Accepts Def.
Mr. Gorman was not slow in accepting the professional def.

"Muzzey's law suit will not stifle my voice," said Mr. Gorman in a statement to the press a few hours after the damage suit praecipe was filed. "It shall be heard again next Monday when I return to my testimony before the board of education in the trial of William McAndrew, school superintendent, on charges of fostering pro-British teaching in the schools."

"My voice shall be heard in taking up the vicious Schlesinger history and telling Chicago taxpayers how their school teachers sent to a class at the University of Chicago by Superintendent McAndrew, rebelled against the pro-British utterances of that author."

Says Nation Is "Tuning In."
The place for Muzzey to plead his case is before the taxpayers of Chicago. The whole nation is tuning in and would like to hear Muzzey's sonorous voice defending his pro-British version of American history.

"The people would like to hear him explain his reasons for minimizing and disparaging the heroes of the Revolutionary War and their achievements."

The cudgel for Prof. Muzzey was taken up by former Judge Stephen A. Foster, who filed the praecipe. The suit, he said, will charge that statements in Dr. Muzzey's book were distorted and "maliciously construed" in the Gorman report to the mayor after an investigation of Chicago school text books.

The report was twisted, said Mr. Foster, to make it appear that Prof. Muzzey held toward the colonists and George Washington the sentiments which the book actually ascribed to King George III.

EMPIRE STATE FEDERATION OF WOMEN'S CLUBS TO MEET
The Empire State Federation of Women's Clubs will hold a session at St. Mark's A. M. E. Church, Foxhall avenue, Sunday afternoon at 2:30. Mrs. Frances Proctor will be master of ceremonies. Business will be conducted under President Mrs. J. W. Harden. Scripture reading and solos will form a part of the program while an address will be made by Mrs. Gunnon Hillburn. Refreshments will be served to visiting friends.

Officers of the Federation are: Mrs. J. W. Harden, president; Miss Ada Hawkins, secretary; Mrs. Mary Devoe, treasurer.

CONLIN HELD TO AWAIT GRAND JURY ACTION.
Charged with assault in the first degree, Edward Conlin is in the Ulster county jail, being held to await the action of the grand jury on a commitment made out by Judge Misner at Phoenixia. Conlin is a former resident of Kingston and for some time has been engaged in business in Shandaken. It is alleged that he armed with a rifle, went to the home of Clinton Johnson in the town of Shandaken on Thursday and attempted to "clean house." He was taken before Judge Misner on a warrant of arrest and held by the court for the grand jury.

W. C. T. U. Meeting.

Newcombe May Improve Delaware Avenue Station

Referee Malcolm Sustains Contention of Newcombe Oil Corporation and Overrules Zoning Board of Appeals—No Definite Boundaries on City Zoning Map Referee Holds—Says Zoning Board of Appeals Acted Illegally.

The report of Referee J. Lewis Malcolm of Catskill in relation to the appeal of the Newcombe Oil Corporation, against Alphonso T. Clearwater, Samuel M. Watts, Samuel T. Levitas, Chris J. Flanagan and George E. Lowe, as members of and constituting the Zoning Board of Appeals of the city of Kingston, respondents, has been filed with the county clerk. Mr. Malcolm was appointed by the Supreme court last February as referee to take testimony in the matter, determine the facts and the law in the matter and report back to the court with his opinion thereon.

The report of the referee as filed Friday sustains the contention of the Newcombe Oil Corporation, which was represented in the proceedings by Judge William D. Brinnier, Jr., and Roscoe V. Ellsworth, and overrules the decision of the Board of Appeals and states "I therefore am of the opinion that the relator should have the relief sought by it in the present proceeding."

No "Definite Boundaries" on Map.
The opinion of Referee Malcolm is based on the facts as brought out in the examinations of witnesses sworn before him when it became apparent that there were no "definite boundaries" to the various areas designated on the city zoning map which was a part of the zoning ordinance adopted by the common council in 1925. The testimony showed the "impossibility of clearly defining any district upon the map which accompanied the zoning ordinance of Kingston." Its therefore holds "the attempted setting apart of the various districts therefore by the ordinance must fall as unauthorized."

Testimony given showed that "no measurements or scales were used in making the map and there is no possibility of telling accurately where the dividing line was between any particular piece of property or any particular zone."

Denied by Public Works Board.
On September 10, 1926, the Newcombe Oil Corporation applied to the board of public works for permission to reconstruct and improve its filling station at Broadway and Delaware avenue. This permission was denied by that board on the grounds that that board had no authority under the ordinance as the property was divided into a business and residential property.

Mr. Brinnier for the oil corporation appealed to the Zoning Board of Appeals, setting forth the facts that the owners desired to remodel the gasoline filling station and erect a building for refreshment purposes in connection with the filling station. These buildings were to be of ornamental design.

Company Appeals to Court.
That appeal was heard on January 12, 1927, by the Zoning Board of Appeals. Argument was held and several property owners were heard. After considering the matter in executive session the appeal was denied and the next step by the oil company was to institute certiorari proceedings.

Before Referee Malcolm, Brinnier & Ellsworth appeared for the relators and Corporation Council H. H. Flemming appeared for the city. David Terry, Alrah A. Staples, Mary K. Rafferty, Margaret J. Delaney, Edward T. McGill, Fannie Mambert, James A. Delaney, Fred E. Boardway, Edward J. Abernethy, Bernard J. Donovan, Charles Snyder and Jacob Williams, property owners, were represented, many of them by John W. Eckert.

Property Used Since 1922.
Testimony was taken showing that on March 8, 1921, the Hudson Valley Oil Corporation purchased the premises in question and on April 29, 1927, the Newcombe Oil Corporation, a sister corporation, took title to the property consisting of a triangular plot about 174 feet on Broadway and 221 feet on Delaware avenue and 143 feet on the third side of the triangle. Since 1922 the property has been used as a gasoline filling station and a residence on the property has been used by the employees of the company.

Zones Designated by Colors.
When the city common council drew up and adopted a zoning ordinance on February 3, 1925, it designated certain business, residence and manufacturing zones. These were designated on the map by colors. The residence zones were designated by yellow and yellow and blue. The business zones by red. On the manufacturing zones by blue. That map the block bounded by Delaware avenue and Livingston street was designated as a residence block, except the triangular piece at Broadway.

St. Mark's A. M. E. Church, Foxhall avenue, the Rev. J. M. Proctor, pastor. The second quarterly conference held Thursday night was a record breaker. The Rev. W. W. Thornton, Ph.D., P. E., preached an edifying sermon. In spite of the inclement weather a large number of the members as well as friends attended the service and were pleased as well as helped by the discourse. The reports from the regular departments as well as from the auxiliaries were quite gratifying, showing marked advance over the same period of last year. Three presiding elders conducted the affairs of the church. Sunday will be one of unusual helpfulness. The pastor will preach at both services upon live topics. The usual class service will follow at 12:30 p. m. At 3 p. m. the Women's Federation will meet in St. Mark's when representatives from Poughkeepsie, Newburgh, Middletown, Hudson, Yonkers and near-by towns will be present. A fine program will be rendered in connection with the regular routine business of the organization. The public are most cordially invited. Seats free. The choir of the church will give a musical "Hallucination" party Monday night. They promise something out of the ordinary, with refreshments at the close of the entertainment. Black Crepe Elizabeth for Chic Fall Ensemble

A charming costume for fall is this one worn by Yvonne Taylor, the "movie" star. The suit is of black crepe Elizabeth. The coat boasts a long V-neck line and fastens in front with a long bow of self material. The skirt is plaited. With this suit is worn a pert little black hat of felt and grosgrain ribbon and a silver fox scarf.

Three Ways of Applying Cross-Stitch Embroidery

"Probably the oldest and certainly one of the simplest and most fascinating of all decorative stitcheries, is cross-stitch," writes Ethelwyn J. Guppy in Needlecraft Magazine. "Of course the name tells one exactly what it is—two diagonal threads, one laid to the right, the other to the left, intersecting at the center to form a cross, but there are at least three methods of applying cross-stitch embroidery. Originally it was worked by counting the threads of the material, and this 'probably gives the most satisfactory appearance: the old-time samplers were done in this manner. Canvas, scrim, linen or any material which has a regular square weave, that is, the same number of threads to the inch, both ways, is selected for the foundation. Any cross-stitch pattern, working chart, or a design made on checked paper to suit one's individual taste or requirement chosen and 'taken off' in cross-stitch—each square or space of the pattern representing a cross on the linen, and the different symbols in the squares standing for certain colors.

"Then there is the stamped cross-stitch for those who prefer to work by such a pattern rather than by the preceding method.

"Finally, there is the handsome and dignified style of cross-stitch which covers the entire surface, leaving no canvas to show. For this a strong square-mesh canvas is chosen, and a rather heavy yarn in three colors—a brilliant Chinese red for the check-lines and centers, tan for the flower-forms and deep old blue for the background. Beautiful chair-cushions, chair-backs, floor-cushions, footstool-covers, rugs, and so on to the end of a delightful chapter, are made in this manner. Any cross-stitch pattern may be worked out on the canvas in any desired color of shades, and the background filled in with another color with most happy results; and if a very heavy yarn is used, it is not necessary to make crosses."

Two-Piece Costume Is Still Among Favorites

One cannot get away from the two-piece costumes in the fashions—but who wants to? The jumpers worn with the heavy crepe de chine skirts are most eccentrically decorated. They usually have a pair of fish or a pair of game cocks or an odd geometrical design applied on them in a contrasting color. Capes are frequently worn with these costumes and usually are the same color as the blouse and lined with the same color as the skirt. The skirts are plain in the back and have a heavy full circular godet in front.

Sweaters That Glitter on Fall Fashion List

Even sweaters have to glitter nowadays. The newest of these garments are ornamental rather than practical, from a sports or warmth standpoint. They are of metallic jersey and usually of gold, striped horizontally with the same color as the skirt over which they are worn. Blue and green are the favored skirt colorings at the moment.

Furs Are One-sided

A one-sided point of view is manifested by the fur treatments on the latest imported coats, which have one side fur collar, and single panels that are only placed at one side of the garment.

Imports from Chanel and Louischouler Introduce Flared Ensembles and the Wrappy Cape.

Next is a Chanel Model of Black Velvet with Blouse of Velvet Printed Black and White. The Little Jacket is Distinctly Flared and Has a Wide Scarf Collar. The Side Drapery of the Skirt is Lined with Satin.

The Evening Wrap is From Louischouler. It is of Green Velvet Trimmed with Pearl Gray Fox to Give the Effect of a Cape. The Lining is Green Satin.

Each unit is tuned to the same pitch, or else the result is no harmony. It matters little whether the wrap be long or short, straight or of the swinging-cape variety; what does matter is that a close relationship be preserved, a relationship that includes the occasion. No woman, no matter how elegantly clad, is ever well dressed unless her clothes are appropriate to the occasion on which they are worn.

Although black deserves mention in capitals, since it was never more smart, colors are really typical of the times. The three tonal blues sponsored by Lelong and called "L. L. blues" are important as well as all blues. Also important are all shades of beige and brown, colors that are present in all types of dresses, including evening gowns. The use of these shades in evening gowns is a new departure.

Among the greens, those which tend toward a yellowish cast and the cool green peculiar to ferns must be mentioned as leaders. Pine-needle is a green that has many followers. One is apt to find these satisfying shades coupled with the shadow-like grays in which so many of the new furs are found.

Eleanor Gunn on Fashions

The Youthful Dancer Frock Must Be Expressive of Youth—Frequently Fashioned of Georgette, It May Also Be of Velvet.

New York—There is always the debutante to consider. In this day and generation, she is not lightly dismissed, whether one is handling her problem from one angle or the other. Her frocks, for instance, are expressive of youth and spring-time.

In degenerate or shaded effects, founced and petaled drapings possess a delicate flower-like charm that seems a wise choice for the dance frock, or bridal procession. More and more maidens will lend a picturesque note to autumn weddings because of their bouffant skirts, which many times will be of crisp tulle. Peach, apricot and coral, azure and aquamarine, molting into mauve and yellow and green, are delectable color schemes for winter wedding marches.

Violins and mayno, rated as "bride's-mother" shades, are by no means confined to matronly types, any more than materials or lines are kept within certain age limits. It is everyone's desire and feverish intent to appear as youthful as possible. Except in the matter of measurement, there is little difference in the fashions shown in the misses' department from those grandmother selects.

The preference in evening hostelry still runs to flesh and the so-called nude shades, while in slippers there is a tendency to add a glittering clasp or buckle.

EVERYDAY GOOD THINGS

It is quite necessary that more of our coarser grains should be used for food.

Corn Bread.—This is a recipe worth trying and each family, especially where there are growing children, should use much of the whole grain in breads and breakfast foods. Heat one pint of milk until boiling, add three-fourths of a cupful of corn meal—get the water-ground meal if possible, as the germ is left in it. Add one teaspoonful of salt on the top of the stove (for an hour) until smooth and thick, stirring often and cooking slowly after the first five minutes. Remove from the heat and cool. When cold stir in the yolk of four beaten eggs and the whites stiff.

We hereby suggest a slogan for meat markets: Steak from athletic cows.

"I want to be excused," said the worried-looking jurymen, addressing the judge. "I owe a man \$5 I borrowed, and as he is leaving town today for some years I want to catch him before he gets on the train and pay him the money."

"You are excused," returned His Honor, in icy tones. "I don't want anybody on the jury who can lie like that."

Once in a while you will find a married woman who will admit that she would not like to be single again.

"I was sick and thought the change would do me good," explained the pickpocket to the judge.

Tuning Church Bells

It is said that an English clergyman was the first to call attention to the fact that bells are rarely in tune and that the fault can be remedied if a church bell was originally in tune with itself. According to his theory a bell must have at least five times at correct intervals to form a perfect musical chord.

At first the work of tuning was done with a hammer, a chisel and a file, and a magnificent tenor bell in Norfolk, England, was thus reduced three-quarters of an inch in diameter; but modern bell foundries employ a machine with a revolving cutter that shaves the metal near the crown of the bell until the tuner, aided by a tuning fork, has hit the right pitch.

Inadequately Armed

In a courtroom in Iowa a tramp stood charged with stealing a watch. He stoutly denied the impeachment, and brought a counter charge against his accuser for assault committed with a frying pan.

The judge was inclined to take a common-sense view of the case, and regarding the prisoner, said: "Why did you allow the prosecutor, who is a smaller man than yourself, to assault you without resistance? Had you nothing in your hand to defend yourself with?"

"Your honor," answered the tramp, warily, "I had his watch, but what was that against a frying pan?"

THE DANGER OF NEURITIS

The neuritis victim hardly knows the danger of this disease. Usually the pain is so persistent day and night that any measure of relief is welcome and no thought of future danger is possible. Yet, there is danger, unless neuritis is rightly treated.

Neuritis, like neuralgia, may be caused by a local spinal nerve derangement, and thus affect only a local part of the body. If the neuritis is in many parts of the body it indicates a more general derangement of the spinal nerves.

The danger of neuritis, if not quickly checked, is that the heat in the nerve finally atrophies or destroys the nerve. This degeneration of nerve tissue, if the neuritis, for instance, affects the arm, amounts to a loss of power in that arm. Neuritis should be checked at once. Be on the safe side by having a scientific Chiropractic examination made now.

Dempsey Club's Headquarters

Will be opened Monday in former United States Hotel building at No. 555 Broadway—Club is growing in numbers and enthusiasm.

The Dempsey for Mayor Club on Monday will open headquarters in the former United States Hotel building at No. 555 Broadway, in the central section of the city. The need for a headquarters was brought up at a recent meeting of the club and Ray Everett, the Republican candidate for Alderman-at-large, moved that the matter of a headquarters be put in the hands of a committee to select a suitable place in the central section of the city and easily accessible.

The Dempsey for Mayor Club is growing in numbers and enthusiasm. It is composed of men and women who feel that the city of Kingston should be governed by a young man who has proven himself capable to carry on the city's business.

The club will hold its regular weekly meetings on Thursday evenings in Red Men's Hall on Railroad street and at the meeting next Tuesday several speakers will be present and present the ideas of the campaign.

Many Apply for Absentee Ballots

Nearly 500 applications have been received for absentee voter ballots by the Ulster county board of elections. Today is the last day for registration so that they may be listed, registered as to whether sufficient statement under the election law is given as to why the applicant will be away from his voting district on election day. The greatest number of applications have been sent in from the towns, quite a number being from the town of Woodstock.

Among reasons given are that the applicant will be on a hunting trip, other voters will be in the south, or are teaching school in other counties or states, and some are caring for invalids out of the county, etc.

Freight Rates on Hay Unchanged

Utica, Oct. 22.—New York hay growers need not worry for the present about freight rates on hay, from points in this state to points in the south, according to an announcement made today by the State Farm Bureau Federation.

Last month it was brought to the attention of Federation officials that railroads were planning an increase in hay freight rates which would cost the farmer approximately \$1 a ton. A vigorous protest against the proposed increase was made by E. V. Titus, transportation director of the Farm Bureau Federation, at a conference held September 20 in New York city, with the Truck Line Traffic Executive Committee. M. F. Thurston, of the state college of agriculture, was present and gave facts pertinent to the condition of hay growers in this state. W. E. House and D. J. Sims, representatives of the state hay and grain dealers' association, also attended the conference and vetoed the increase. The decision of the railroads to abandon their plans, at least for the present, comes as a result of this meeting.

Severe Tests For Four Teams

Princeton, Cornell, Army and Dartmouth, entered this season, are meeting major opposition today.

New York, Oct. 22 (AP).—The last of football's "unknowns" will be out in the open by tonight, with their capabilities fully analyzed and officially recorded. In the east such teams as Princeton, Cornell, Army and Dartmouth, hitherto untested, are on the firing line today against major opposition.

After a lull of 20 years, during which they did not meet on the gridiron, Princeton and Gilmour Doble's big Red team of Cornell, start anew their football relationship on the banks of old Cayuga. Both teams are undefeated but Princeton's record appears to be a little more impressive. Cornell has an unseasoned line and upon the ability of those forwards to stand the Tiger charge rests a whole lot of the team's chances for victory.

The game at Ithaca has been roughly regarded as a test between tackle-smashing tactics of Doble and the versatile running and open style of Bill Roper. Events may make it otherwise and either or both teams may have surprises in store.

Yale-Army Game.

The Yale-Army fixture has a 30 year old background and this year's contest seems to be worthy of the tradition. Yale has been unable to forget the 33-0 beating it took from the Army Mule last year. The teams appear to be about evenly matched today. Yale looks for much from Bruce Caldwell and the cadets expect equally as much from Captain Harry Wilson, playing his sixth and last year on college gridirons.

Most critics are of the opinion that Harvard has improved greatly since the defeat by Purdue a short two weeks ago, and they look for the Crimson to give a good account of itself against Dartmouth. Jesse Hawley's Hanover lads, like the Army outfit, are undefeated, but it takes today's game to answer the question whether previous scores meant very much.

One of the "big games" of Pennsylvania, the annual clash between Washington and Jefferson and Lafayette brings two undefeated teams together at Easton. Lafayette received a surprise at the hands of West Virginia last week, being held to a 7-7 tie, and as Pittsburgh had trounced the mountaineers by a 40-0 count, Lafayette lost some of its prestige. The supremacy of Allegheny county was staked on the meeting between Pittsburgh and Carnegie Tech, but Pitt's Panthers are anxious to maintain a perfect score and keep in the running as one of stronger teams in the east.

Penn State hopes to break the jinx that has prevented it from crossing the goal line of Syracuse. The Orange is still undefeated. Other games in the east bring together New York University vs. Rutgers, Williams vs. Columbia, Navy vs. Duke, Colgate vs. Wake, Brown vs. Lebanon Valley, West Virginia Wesleyan vs. Boston College.

Morgenweck to Manage Kingston

According to the Knickerbocker Press of Thursday, October 20, Frank Morgenweck will be the manager of Kingston representatives in the Metropolitan Basketball League this season. His picture appeared in a group with seven other bosses of teams to play in the Met court circuit including Tom Dolan of Albany whose team has been granted a franchise in the league this year. Albany will open the season on November 4.

The Knickerbocker Press gave Morgenweck's lineup of Kingston representatives as follows: Knothe, M. Husta, Yerkes, Riconda, Kofler, Sirosky, Grabiasz and Kelly.

Stage Set for Game Sunday

The Yellow Jacket football squad is all set for the game Sunday at the Kingston Fair Grounds, which is scheduled to start at 3 o'clock. The attraction will be the fast Beacon Professionals. Manager Dwyer has received word from the management of the Beacon eleven that they will be in Kingston at 1 o'clock, and will be ready to play at 3.

The Beacon team is said to be stronger than last year, having added a number of fast men to their lineup. The Yellow Jackets beat the down river club last season and expect to do the same this Sunday.

A large crowd is expected to turn out for this struggle as the number of fans at the last game showed a large increase.

Fisher Defeated Johnny Carpino

Joe Vosdick and Roy Van Buren Are Defeated at Poughkeepsie Bout.

Vosdick Was Strong at the Finish. Charlie Fisher was the only Kingstonian able to turn out a victory in the Poughkeepsie Industrial League boxing show at Woodcliff Park Thursday night. Fisher got the decision over Johnny Carpino, also of this city, after six rounds of milling. Joe Vosdick of Jersey City, former Saenger boy and popular as a boxer in

CHARLIE FISHER.

Kingston, lost in the most colorful scrap of the evening to Jackie Reid of Newburgh in the eight-round final, while Roy Van Buren of this city dropped the four-round curtain raiser to Irish Joe Haley of Newburgh. The Fisher vs. Carpino tilt was a

tough battle. Carpino, who had not fought in over a year, showed his long absence from the arena did him no good. He possessed his remarkable endurance but could not land his crushing blows upon Fisher, calmer scrapper of the two. Fisher took the battle with ease and watched for openings while Carpino depended upon landing a hard one. Johnny missed a number of times in his eagerness to slip one over.

Joe Vosdick and Jackie Reid put up a fast exhibition. Vosdick who did not go to work until late in the final scrap had Reid almost out in the last stanza.

Roy Van Buren could not land his haymaker on Irish Joe Haley of Newburgh. The Hilly City boy blocked Van's blows and rolled up a number of points in his favor.

Joe Kelly of New York, clever boxer, sept Jerry Samper of Poughkeepsie to the canvas after two minutes and thirty-three seconds of battling in the second round.

Joe Colletti, former flyweight of the Hudson valley, scored the second knockout of the evening. He dropped Eddie Enos, ex-champion of the New York State National Guard, in the fifth of their scheduled eight-round tilt.

Billy Owens of Poughkeepsie and Stanley Reed of Newburgh put up a flashy four round tilt which ended in a draw.

COAST GRIDDERS ARE VERSATILE

Football Squad Recruited From Many Sports.

Athletes at the University of California generally are proficient in more than one sport, leading one to surmise that athletes are born and not developed, although there are instances too numerous to mention at Berkeley where men starred in only one sport and were unable to make the squads in another activity.

Basket ball players at California show an aptitude for football, especially in the wing and back field positions where one of the main requirements is an ability to handle the football, both receiving and passing. This factor is one of basket ball's essential requirements and the combination finds five of the Pacific coast champion quintet on the football squad.

Track has contributed six men to the football squad, while Capt. Frank Kilbel of the boxing team is a for-

midable representative of the leather pushers. The track men playing football include Russell Ewing, sprinter; Frank Fitz, high jumper; John Kahlitz and Irving Marcus, broad jumpers; Irvine Phillips and Elmer Gerken, weight men.

Basket ball has donated Paul (Dutch) Cramer, quarterback; Jim Doungery, end; and Elson, another quarter. Thornton and Verdell, two likely sophomores, starred for the freshmen in the hurdles last spring.

Baseball players, as a rule, especially if they are good, appear to pass up football, but are found in other nonconflicting sports. Risk of slight limb hurts which might end their careers on the diamond are against baseball men in football.

Bosses His Idol

Dan Howley, as manager of the Boston Browns, has a man working for him who was his boyhood hero. As a small boy Howley used to get nicked by "standing room only" space, and use it to sit, not stand, in right field at Boston, 12 miles from his home. Back Freeman, a noted home-run hitter, was then the Boston right fielder. Today Freeman is a scout for the club Howley is managing.

POULTRY

CHICKS CAN'T LIVE WITH COCCIDIOSIS

Coccidiosis is one of the most destructive of all young chick diseases, and if the disease has once gained headway in the flock the chicks must die. The disease may be prevented next year by disinfecting the brooder house and rearing the chicks away from the older fowls.

The symptoms of this disease, according to Dr. Leonard W. Goss of the college of veterinary medicine of Ohio State university are loss of appetite; the young birds sit around with drooping wings, eyes closed, and it sometimes may be noted that the droppings are streaked with blood.

"On opening the chicks," the doctor writes, "it is observed that there is considerable inflammation of the intestines, some just back of the gizzard, but the most inflammation is found in the ceca or blind gut. Hemorrhages occur in these parts, and they may be well distended with blood, or in the more advanced stages the blood may be washed out, leaving a cheesy-like mass.

"In this mass are the coccidia which are the cause of the disease and are passed out in the droppings.

The best method of curing the disease is to prevent it, so sterilize the brooder house before the chicks are again put into it, using strong concentrated lye, which will dissolve the organisms, and move the house to a clean, fresh sod away from the other fowls."

Mites Are Different in Habits From Lice

Mites are entirely different in habits and modes of living than lice, and different methods must be employed to destroy them. Both reduce the vitality of the fowl to such an extent that they easily succumb to disease, writes Michael K. Boyer in the Farm and Ranch.

The louse is a very small insect that cannot suck blood. It lives on the body of the fowl, feeds on filth, dried blood scales from the feathers, and scurf of the skin. It breathes through the pores in the sides of the body.

Lice are killed by suffocation, consequently, insect powder or even dust will destroy them.

The mite belongs to the spider family, and attacks fowls by sucking the blood. The louse does its damage by biting. Mites have eight legs, lice have six. The former live in cracks and crevices of the building, and visit the fowls only at night.

Turkeys on Farm Means an Additional Revenue

Turkeys on every farm will mean additional revenue for the many necessities needed on the farm. An increased production will not lower prices, for during the past three years in all of the large cities campaigns have been put on by the leading produce men, urging the consumption of turkeys during the entire winter season and not just a holiday feast.

The success of this campaign last season shows that people are anxious to eat turkey any time, for on August 1 there was less than two and one-half million pounds of turkey in storage. Most of this will be consumed before the 1927 crop is sent to market. With the same demands of last season turkeys should bring an exceptionally high market price this fall and winter.

For Turkey Fattening Ration Use Much Grain

The North Dakota experiment station gives a good home mixed turkey ration which consists of 100 pounds ground barley, 100 pounds ground oats, 100 pounds ground wheat and 50 pounds of meat scraps. If this ration is kept before the turkeys in a self-feeder at all times with a feeding of grain at night, it will do much toward increasing the returns at market time.

Milk makes a fine food, and if not available, meat scraps, tankage or dried buttermilk are fine protein foods. The animal protein fits in best with other feeds at the rate of 15 per cent to 25 per cent of ground feeds.

Cull Flock Closely

Culling the flock closely will not only save feed and labor, but it will also help to remove crowded conditions that often prevail on account of the growing young flock. The disposal of cockerels is often advisable for a similar reason. It is better to keep a small flock of birds that pay their way than to keep a large flock in which there are a lot of drones that eat up the profit made by good birds. Birds that should be culled are sure to show a loss in the future.

Laying Supplements

The best supplement to any ration is direct sunlight and green feed, according to tests conducted by the Ohio experiment station. Successful feeding-for egg production depended largely upon the use during late fall and winter of alfalfa, clover, soy bean hay and cod liver oil as supplements. Grains and their by-products and packing house by-products do not usually make a complete ration. The legume hays improved the hatchability of eggs.

Trinity Turkey Dinner

The Ladies' Aid of Trinity M. E. Church will serve their annual turkey dinner Wednesday, October 26. An excellent menu is planned. Mrs. Jones will cater. Fancy articles suitable for Christmas gifts will be on sale, and the candy table will also be in evidence.

HERE'S THE REAL "SUGAR DADDY"

Bror Dahlberg, president of the Southern Sugar Company, is credited throughout that vital industry with being the foster-father of the present healthy growth of the cane on this continent.

When American sugar cane was growing pany, Mr. Dahlberg summoned the world's greatest sugar-hygiene experts. They scoured all corners of the world. Deep in the Himalaya countries of Asia they found semi-wild cane, sturdy and sweet. Roots were brought here, pressed, and these were bred into the emaciated native cane. Today America produces the finest and the most sugar cane on earth.

Mr. Dahlberg, a Chicagoan, is here shown with a typical growth of Florida cross-bred cane, more than twice his own height.

A Free-For-All

Pat was on an ocean liner bound for America. It was his first trip on the water and every ordinary event on the boat was a new one in Pat's experience.

On the third day out the ship burst into flames. The fire was rapidly consuming the boat.

All the passengers were appropriating the life preservers, life savers, and life boats. Pat stood by for a few minutes, watching the mad rush. Finally, perplexed and disgusted, he exclaimed:

"Well, if everybody is going to steal stuff off o' the ship, O'll be gosh darned if O'l don't get in on the stealin' myself."

So saying, Pat grabbed a crowbar and jumped overboard.

Frozen Eye Glasses

Optical glasses cannot be cut unless fixed immovably. To this end they are glued to iron frames of different sizes and various shapes. Until recently, when finished the plates of glass have been knocked from the frames with a light mallet, cautiously struck upon the edges of the plates.

The work was hard and as the least shiver of the edge, though imperceptible, disfigured the lens, the workman needed a very light, skillful hand. The discovery was made by an expert optician that the blocks of crystal separated more easily when they had been exposed to the cold during the night. This discovery has effected a revolution in the manufacture of special glasses.

Shakespeare Pall-Bearer

In a corner of an old cemetery near Fredericksburg, Va., says Copper Weekly, a gravestone has been found lying flat on the ground under a tangle of weeds and creepers. The inscription, in old English, is quite difficult to read, but it reads:

"Here Lies the Body of 'Edward' Helton

"Practitioner in Physics and Chiropractic. Born in Bedfordshire, England, in the year of our Lord, 1542. Was contemporary with and one of the pall-bearers of William Shakespeare of the Avon. After a brief illness he spirit ascended in the year of our Lord 1618, aged 75."

His Early Training

Two men had met on the beach at Shrimpsbury. Both were attired in swimming costume, and the conversation turned toward this sport. After a few remarks the elder man said:

"I'll race you to the end of the pier and back."

"Right you are," agreed the other who was a professional at the game. "Bet you ten bob I win."

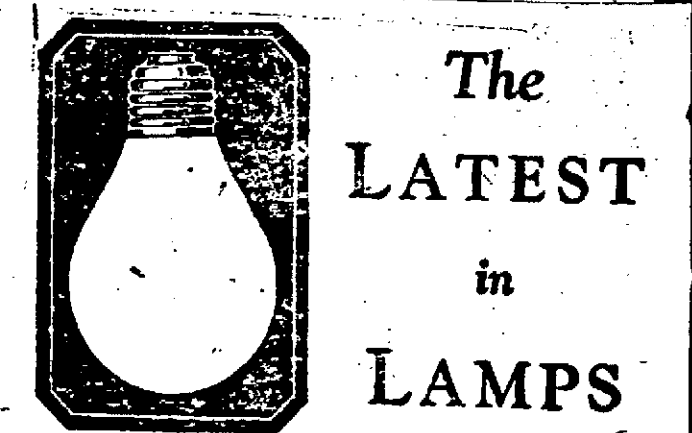

They plunged into the surf, and the professional swimmer was badly beaten.

"My stars!" he exclaimed. "When did you learn to swim?"

"Me?" said the other. "I used to be a newsboy in Venice."—Exchange

Legion Post Gets More Members

Another Group Initiated Friday Night When Solemn Ritual Service is Held—Paris Convention Delegates Give Reports.

Another group of new members were initiated into the American Legion Friday night at the regular monthly meeting of Kingston Post No. 156. For the second time in the post's history, the solemn ritual service was carried out.

Eugene E. Carey asked if anyone knew of any ex-service man's grave that was unmarked. The government furnishes tombstones free of charge. The next of kin to the departed comrade should make application through the local post if a stone is desired. There is no red tape connected with the movement to secure a grave marker.

It was reported that New York State Commander Schohl has accepted an invitation to greet the local Legionnaires and will arrive here next Thursday. A committee has been appointed to work out the details for his reception.

A vote was cast to purchase three photographs from the War Department of the three main cemeteries in France. The pictures will be hung in the Legion Building.

No Profiteering, Say Delegates.

Andrew Murphy, Jr., and Mr. Carey gave a detailed account of their Paris convention trip. They both stated that there was no profiteering among French hotel keepers. Mr. Carey made reservation for a \$27.50 a week room, but said he was given a fine room with another Legionnaire for \$10. It was brought out by Commander Heiselman that both Carey and Murphy defrayed their own expenses abroad and did not get a cent from the post. They read "Our Own Number," which George Potter forwarded to them, while sailing in gondolas through the principal streets of Venice. The only depressing occurrence was a sea funeral of the first mate who died aboard the steamer going over.

Another subject of interest set forth in a letter from Past State Commander Samuel Aaronowitz, stated that any ex-service man who had applied part of his state bonus, insurance or compensation on the purchase of a house, the house was exempt from general taxation by the city of Kingston up to \$5,000. Application for exemption must be filed through the city assessor. Affidavits will be necessary to back the claim.

Dr. Freas at Redeemer Church.

The Rev. W. A. Freas, D. D., secretary of the United Lutheran Inner Missions, will officiate at the services in the Lutheran Church of the Redeemer, corner of Wurts and Rogers street, Sunday at 10:30 a. m. and 7:30 p. m. Dr. Freas preached at the local church on October 19 and made a very admirable impression.

Diphtheria Clinic Friday

Fifty-seven Children Received Injection of Toxin-Antitoxin Friday Afternoon at Central Fire Station—To Hold Three More Clinics.

Fifty-seven children and their parents attended the fifth of the series of free diphtheria clinics held on Friday afternoon at the Central Fire Station where they received a dose of toxin-antitoxin injected by Dr. Daniel Connelly, city health officer, assisted by Mrs. Mary O'Neil, public health nurse, and Mrs. Lois Gray, Junior League child welfare nurse.

Dr. Connelly stated this morning that in November he would hold the last three clinics of the year. The first would be held November 7, the next on November 14 and the third on November 21. These three clinics will be held at the Central Fire Station.

Great credit is due to the Parent-Teacher Associations of Kingston for their work in making a house to house canvass of the city, interesting parents in having their children immunized from diphtheria, and it was due in a large measure to this volunteer missionary work that over two thousand children were immunized this year.

SHOWS HER LOYALTY TO ST. JOHN'S CHURCH.

A remarkable instance of that loyalty to St. John's Episcopal Church of this city, spoken of particularly by the Rev. Dr. Applegate at the Men's Club dinner on Thursday evening, occurred on Friday morning.

For some considerable time, Mrs. Bruyn Blanchan of Hurley avenue, daughter of the late Mr. and Mrs. James Herdman of this city, has been sadly crippled by illness. In spite of the fact and at the cost of much pain Mrs. Blanchan was taken to the church on Friday morning and tenderly and carefully helped into the new St. John's that she might have a part in the dedicatory service and that of the institution of the Rev. William Poyntell Kemper as rector. She made a supreme effort.

It will be well remembered by the older members of St. John's Church that her father, James Herdman, was for years a vestryman of the church and at one time warden. During a long and honored life in the community, Mr. Herdman brought up a large family in the love and fear of God and they in due time became communicants of this church.
